

Household Sodium Bicarbonate

1. Product description

Household Sodium Bicarbonate is a must-have in every home. It has many applications, both by itself and in combination with other NEFY NATURAL products. By creating your own cleaning products, you can easily clean your entire house. Neutralises unpleasant odours, wonderfully refreshes, and whitens. 100% biodegradable. Does not scratch surfaces/colorants.

2. Intended Use:

Can be used to clean household appliances, countertops, furniture, faucets, tiles and terracotta. It is an excellent component of natural cleaning products and detergents. It effectively absorbs unpleasant odours from cutting boards, refrigerators, ashtrays, carpets, bins, kitty litter boxes and others.

3. Directions for use:

- 3.1. Open the sachet
- 3.2. See our sample recipes:

Gentle, natural washing powder:

2 sachets of Grey Soap
2 sachets of Household Sodium Bicarbonate
½ of a sachet of Household Citric Acid
1 sachet of Household Sodium Carbonate

Directions for use:

Shift the contents of the sachet into a container and mix thoroughly. Use 1 tablespoon of the mixture for each load of washing. After using, carefully seal the container.

Lemon-scented toilet cleaning tablets:

½ of a sachet of Household Citric Acid
1 sachet of Household Sodium Bicarbonate
20 drops of Essential Lemon Oil
grated peel of 1 lemon
2 spoonfuls of water

Directions for use:

Mix all of the dry components in a bowl, adding water and essential oil at the end while still mixing. Pour the mixture into silicone muffin or ice moulds and allow to dry overnight. In the morning, gently remove from the moulds and store in a sealed jar. To use, drop 1 tablet into the toilet bowl and wash after 5 minutes using a toilet brush. Use within approximately 3 months.

Sink cleaner:

1 sachet of Household Sodium Bicarbonate
5 drops of Essential Lemon Oil
15 ml of dishwashing liquid (1 spoonful)

Directions for use:

Apply sodium bicarbonate and essential oil to selected places on the previously moistened sink surface. Leave for 5 minutes to allow the sodium to react with the stains. Apply dishwashing liquid to a sponge and scrub surface thoroughly. Rinse sink with warm water.

Dishwasher cleaner:

½ of a sachet of Household Sodium Bicarbonate
250 ml of Household Vinegar 14%

Directions for use:

Pour sodium bicarbonate into the tablet container, and pour vinegar onto the bottom surface of the dishwasher. Set the wash cycle to the highest available temperature. It is recommended to clean the filter by hand before starting the wash cycle.

Natural refrigerator cleaner:

¼ of a sachet of Household Sodium Bicarbonate
¼ of a sachet of Household Grey Soap
500 ml of water

Directions for use:

Pour water into a bottle, and next add the dry components, mixing until dissolved. Using a clean cloth, wipe down the entire refrigerator with the preparation. Stubborn stains can be removed with by applying additional sodium bicarbonate, waiting a few minutes, and wiping down the surface again with a clean cloth.

Clean cutting boards naturally:

½ of a sachet of Household Sodium Bicarbonate
1 spoonful of salt
½ of a lemon

Directions for use:

Mix the sodium bicarbonate with salt and sprinkle onto the cutting board. Next, scrub the board with a half of a lemon, squeezing out as much juice as possible. Rinse with water and dry.

Natural stain-removal paste:

1 sachet of Household Sodium Carbonate
1 sachet of Household Grey Soap
100 ml of water
100 ml of hot water

Directions for use:

Pour hot water into a roughly 200 ml container, and next add grey soap and mix until dissolved. Add more water, sodium bicarbonate, and mix thoroughly. Apply the paste to the dirty surface and clean with a sponge. At the end, wipe down with a clean, moist cloth. Store the paste out of direct sunlight in a sealed container for up to a year.

Odour-absorbing powder, for shoes, binds, etc.:

1 sachet of Household Sodium Bicarbonate

Directions for use:

Sprinkle the cleaned surface with sodium bicarbonate. After a few hours, thoroughly vacuum the surface. Tip: Best results are achieved when the sodium bicarbonate is left overnight.

4. Other informations

Shelf time: 5 years
Product code: NNSOG280
Capacity: 100g
Packing type: sachet
Quantity in packaging: 4x100g

5. Notes

Transport and store in a tightly sealed package at temperatures between +5°C and +30°C. Keep out of reach of children. Before using, test the product to ensure that the application is correct. The product is not intended for consumption.
